S30SNHIRS

S30HIRS

### S30HIRS

Designed specifically for applying to Centurion Relfex, Concept, Vision and Spectrum safety helmets for improving wearing viability and safety. Sticker set provides coverage on the front, sides, rear and top of the helmet.

### S30SNHIRS

Designed specifically for Nexus Centurion Helmets

### SPECIFICATION

Colours	White Reflective
Pack Quantity	5 sets of High Intensity Reflective Stickers
Helmet Compatibility	Suitable for use on our HDPE and ABS industrial safety helmets
Chemical Resistance	Resists mild acids, mild alkalis and salts. Excellent water resistance. Resists occasional fuel spills.
Application Temperature Range	16 - 28°C
Working Temperature Range	-23 - 65°C
Thickness (film plus adhesive)	0.6mm

### MATERIALS

Retroreflection	At a 5° entrance angle and a 0.2° observation angle the typical co-efficiency of retroreflection is 250. (The entrance angle is formed by a light beam striking the surface at a point and at a line that is perpendicular to the surface at the same point. An observation angle is formed by the light beam striking the reflective surface and returning to the observer)
Surface Film	Vinyl Retroreflective Film with microprisms
Release Paper	90# Polycoated
Adhesive	Acrylic adhesive

### SAFETY STANDARDS

HIGH INTENSITY REFLECTIVE STICKERS	STANDARDS
	Class RA2
	HOSDB, Class 2
	DIN 30710
	NFPA 1901
