

KALIS

DRY COOLING ACCESSORIES

Kalis Dry Cooling uses an innovative cooling technology that helps combat heat stress, keeping wearers cool, dry and comfortable for longer in demanding working environments.

UP TO **15°C** COOLING BENEFIT

LONG-LASTING COOLING

Dry Cooling lasts for 1-3 days thanks to the inner and outer membrane system.

REUSABLE PERFORMANCE

Can be reactivated up to 750 times, lasting up to 5 years* dependent on use.

POWERFUL COOLING

Can provide up to 15°C / 27°F cooling benefit for the wearer.

MACHINE WASHABLE

Can be machine washed for easy care.

ANTI-BACTERIAL

Accessories are anti-bacterial for lasting freshness and protection.

*Product lifespan and cooling performance are dependent on frequency of use, storage conditions, maintenance and environmental factors

BUILT FOR HEAT STRESS PROTECTION

A comfortable, durable and anti-bacterial system that keeps wearer cool well below the 'best performing comfort zone' of 22°C (71.6°F) and 100% dry for long periods of time.

UP TO 15°C COOLING BENEFIT

37°C Ambient Temperature

22°C Comfort Zone
